

CHAIN CUT AND RIVETING TOOL

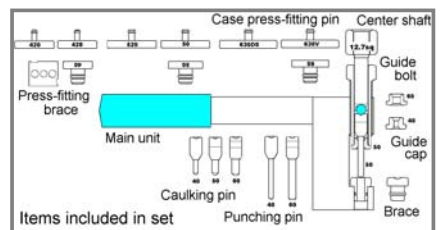

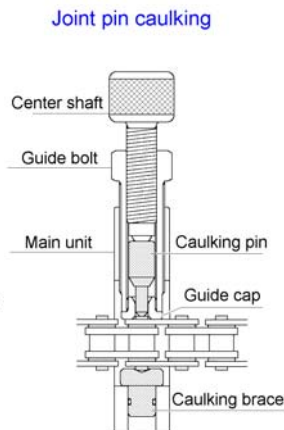

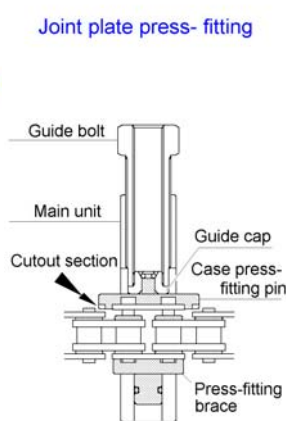

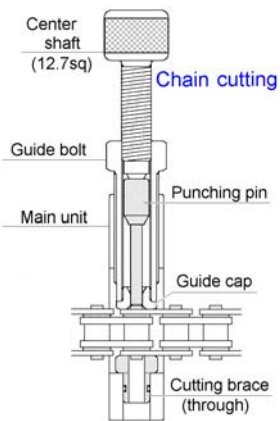

HCC-54

With this comprehensive motorcycle drive chain set, cutting from 40 series to 50 series is a given, along with all kinds of processing from press-fitting of joint plates to flare caulking of joint pins.

This is a powerful tool designed for professionals, and employs high-quality materials and heat treatment to assure reliable work.

* 12.7 sq ratchet handle (sold separately) is required.

* Flare caulking is the only type of caulking that can be done with this tool. It cannot be used for D.I.D. XJ caulking or other types.
