

## DISC BRAKE SPREADER

# HDP-870/100

Essential for replacement of disc brake pads.  
Powerful and sturdy as a result of a total quenching treatment.

Applicable for passenger cars and light duty trucks  
Long effective plate length enables use with various types of calipers.  
Unique slider means that the plate moves smoothly in parallel, without damaging the center screw.

HDP-100  
- for 2 parallel pots and 4 diagonal pots

HDP-870  
- for single pot and 2 diagonal pots

DATA	Plate thickness	Plate effective Length	Plate width	Max. diameter of opening
HDP-870	5 m m / single face	65mm	50mm	75mm
HDP-100	5 m m / single face	70mm	100mm	85mm

\* Use CBT-909 series for calipers with a parking unit.
