

## STEERING STEM BEARING INNER RACE PULLER

# TBP-982

Our own innovative chucking method is used with this tool, to easily remove tapered-bearing inner races used in motorcycle steering systems, without damaging them.

Chuck product codes correspond to bearing product codes.

- R44 32005, CR0643
- R48 320/28, CR0643
- R51 32006, 32907

\* Ball races cannot be accommodated.

\* This tool cannot be used with races which are broken, or if the roller has come off.
